

## COLORADO BACKFLOW TESTERS

Commercial, multi-family and dedicated irrigation backflows are required by Colorado Law to have annual backflow prevention testing.

Single-family homeowners are also encouraged to have backflow prevention assemblies tested annually.

Find a certified backflow prevention tester from the list below. Ask the tester to show you his or her Colorado backflow assembly tester certificate. Once completed, a copy of the backflow prevention device test and maintenance report must be submitted to [alexandera@elcowater.org](mailto:alexandera@elcowater.org)

This list will be updated periodically.

DISCLAIMER: This list of backflow assembly testing contractors is provided as a service for general information only and convenience to the public. ELCO Water District does not guarantee the accuracy of the information in this list, nor the quality of the work provided by the contractors on the list. The list of backflow assembly testers neither constitutes any type of relationship between the District and the assembly testers, nor does it constitute any type of endorsement recommendation, or favoring by ELCO Water. The District has not verified whether the list of backflow assembly testers is certified by the State of Colorado, as required by Regulation 11 of the Colorado Department of Public Health and Environment. ELCO Water District is not responsible for any loss or damage that may result during backflow assembly testing by any contractors in this list and disclaims to the fullest extent of the law any and all liabilities or responsibilities for damages caused by the hiring of any contractor on this list.

TESTERS: To be included in this contact list, or to update any contact information, please email your company's mailing address, email address, and phone number to [elco@elcowater.org](mailto:elco@elcowater.org).
